**A PHOTO FINISH** The Bears and Pandas varsity teams completed their seasons this weekend when the Golden Bears finished their charge to the University Cup this past weekend. But the Puck Bears weren't the only team to qualify for their respective national championship tournaments. In total, 19 out of the 25 teams on campus qualified for the big dance and the women's wrestling team claimed their first national championship — extending the Bears' and Pandas' record of winning at least one national championship every year to 18 years. "Obviously, that's a record to be envied by most of our competitors for sure," Acting Director of Athletics Vang Ioannides said. "We continue to compete on an elite level in just about every single sport. We're pretty happy about that." Now it's on to training for next season. *The Gateway* wishes all of the 600 student-athletes on campus best of luck in all their future endeavours.
